Three Minutes Literature Review (3MLR) Part of Indonesian Olympiad Dentomaxillofacial Radiology Undergraduate Dental Students

1. INTRODUCTION

Three Minutes Literature Review (3MLR) is an academic communication competition designed to train undergraduate dental students to explain a focused literature review clearly, critically, and persuasively within **three minutes**. The format emphasizes:

- Clarity of scientific thinking
- Critical appraisal of dental literature
- Communication to a non-specialist academic audience

This competition is tailored to the discipline of **Dentistry**, with emphasis on evidence-based dentistry, clinical relevance, and research integrity.

2. OBJECTIVES

The objectives of the 3MLR are:

- To train students to synthesize and communicate a focused literature review concisely.
- To strengthen critical reading and appraisal skills of dental research articles.
- To encourage early engagement with evidence-based dentistry.
- To foster confidence in oral scientific communication.

3. ELIGIBILITY

Participants must:

- Be currently registered as **undergraduate students/Clinical of Dentistry (Pendidikan Dokter Gigi Indonesia)**.
- Submit a literature review topic related to dentistry, including but not limited to:
 - Oral and maxillofacial radiology
 - Diagnostic imaging
 - Head and neck imaging
 - Digital dentistry
 - Artificial intelligence/deep learning
- This competition is strictly for individual participants only. Group or team entries will not be accepted.
- Each participant must be guided by a minimum of one official academic supervisor (lecturer). The supervisor's full name and institutional affiliation must be included in the submission.

The literature review must:

- Be based on **peer-reviewed scientific articles**.
- Focus on a **clearly defined research question**.
- Not be taken from previous degree work or published manuscripts.
